

★ 与在VMware中直接登录Linux系统的差别

SecureCRT不需要在宿主机和虚拟机间来回切换，
并且支持复制/粘贴操作

第1步：下载并解压 SecureCRT 安装包

★ 自行上网搜索并下载(32位Windows系统必须自行下载)

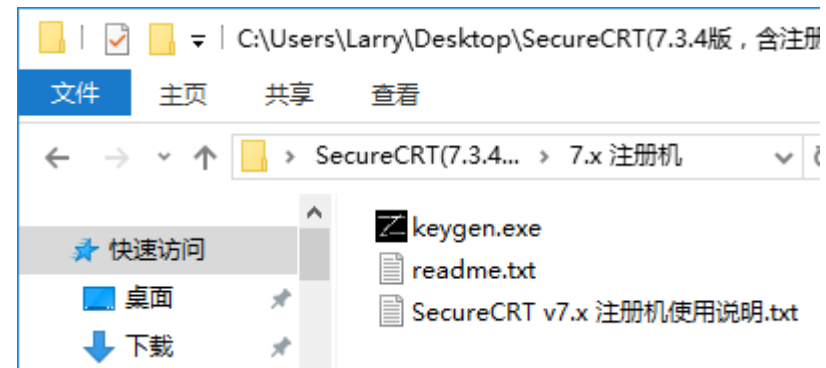

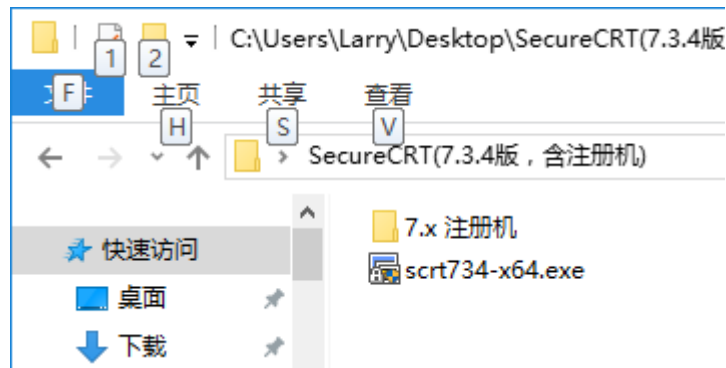

★ 推荐版本(适用64位Windows系统)在QQ群中可下载

压缩包名：

SecureCRT(7.3.4版, 含注册机).rar

压缩包大小：19,049,194 字节

解压后目录结构：

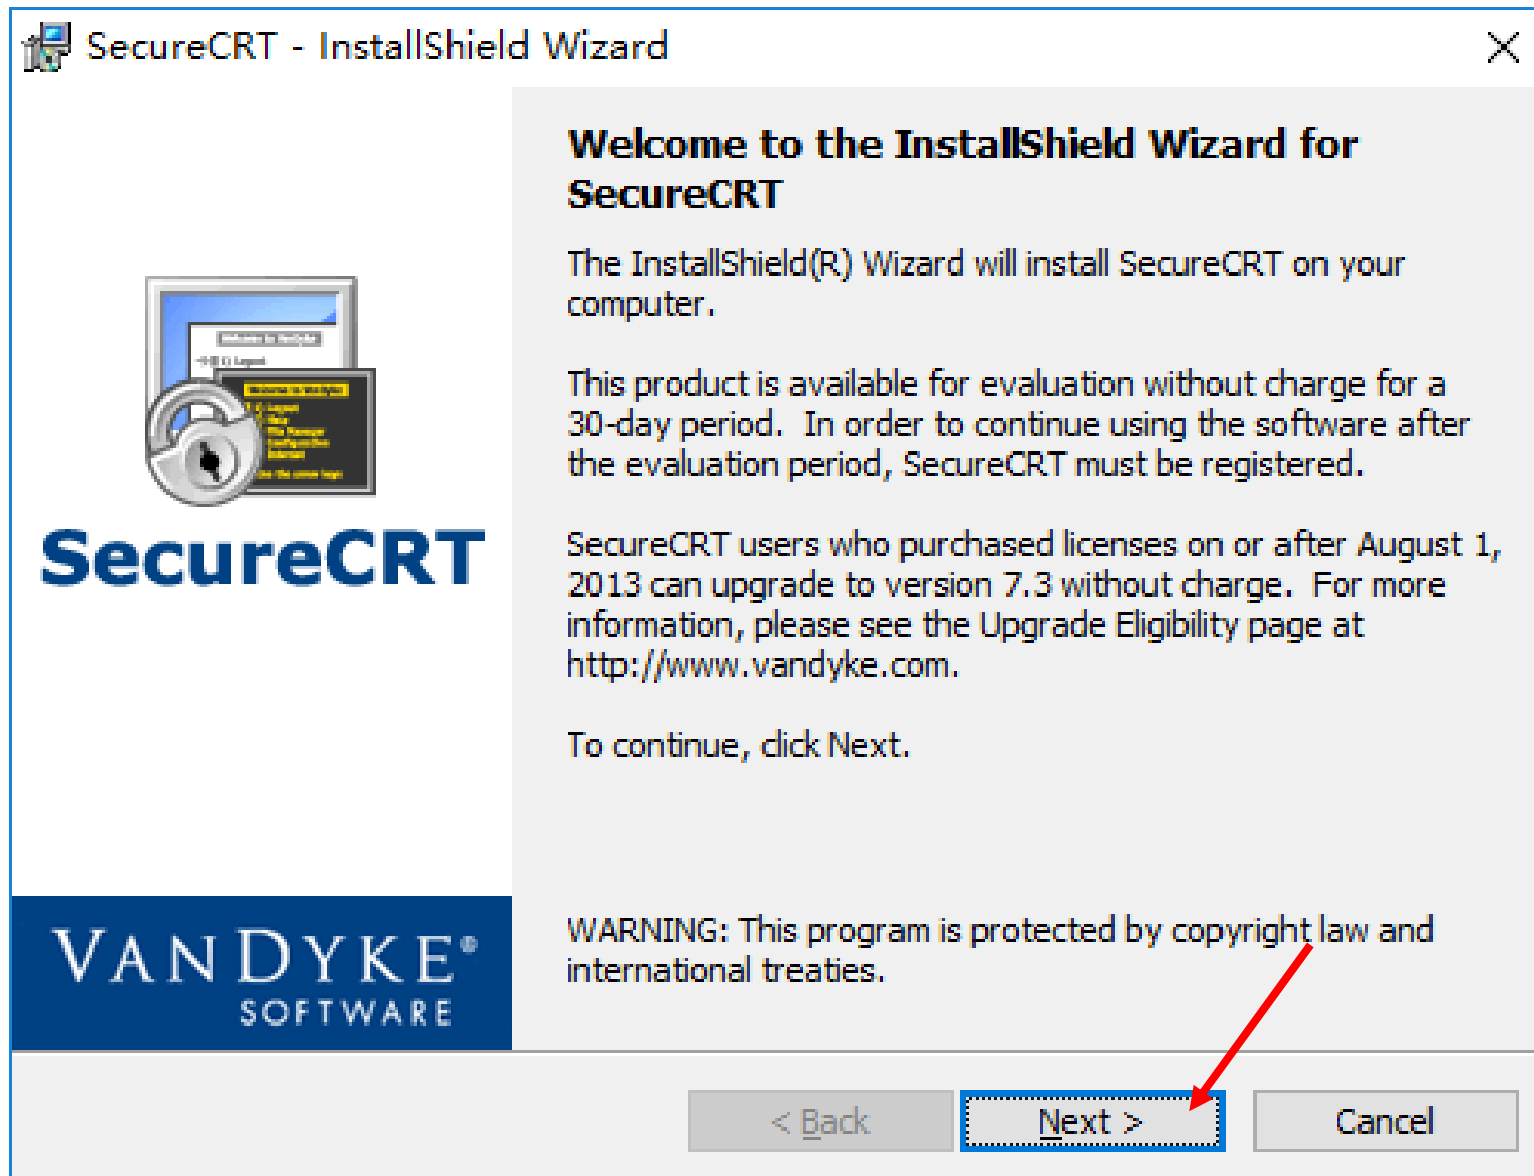

scrt734-x64.exe 大小：19,339,288 字节

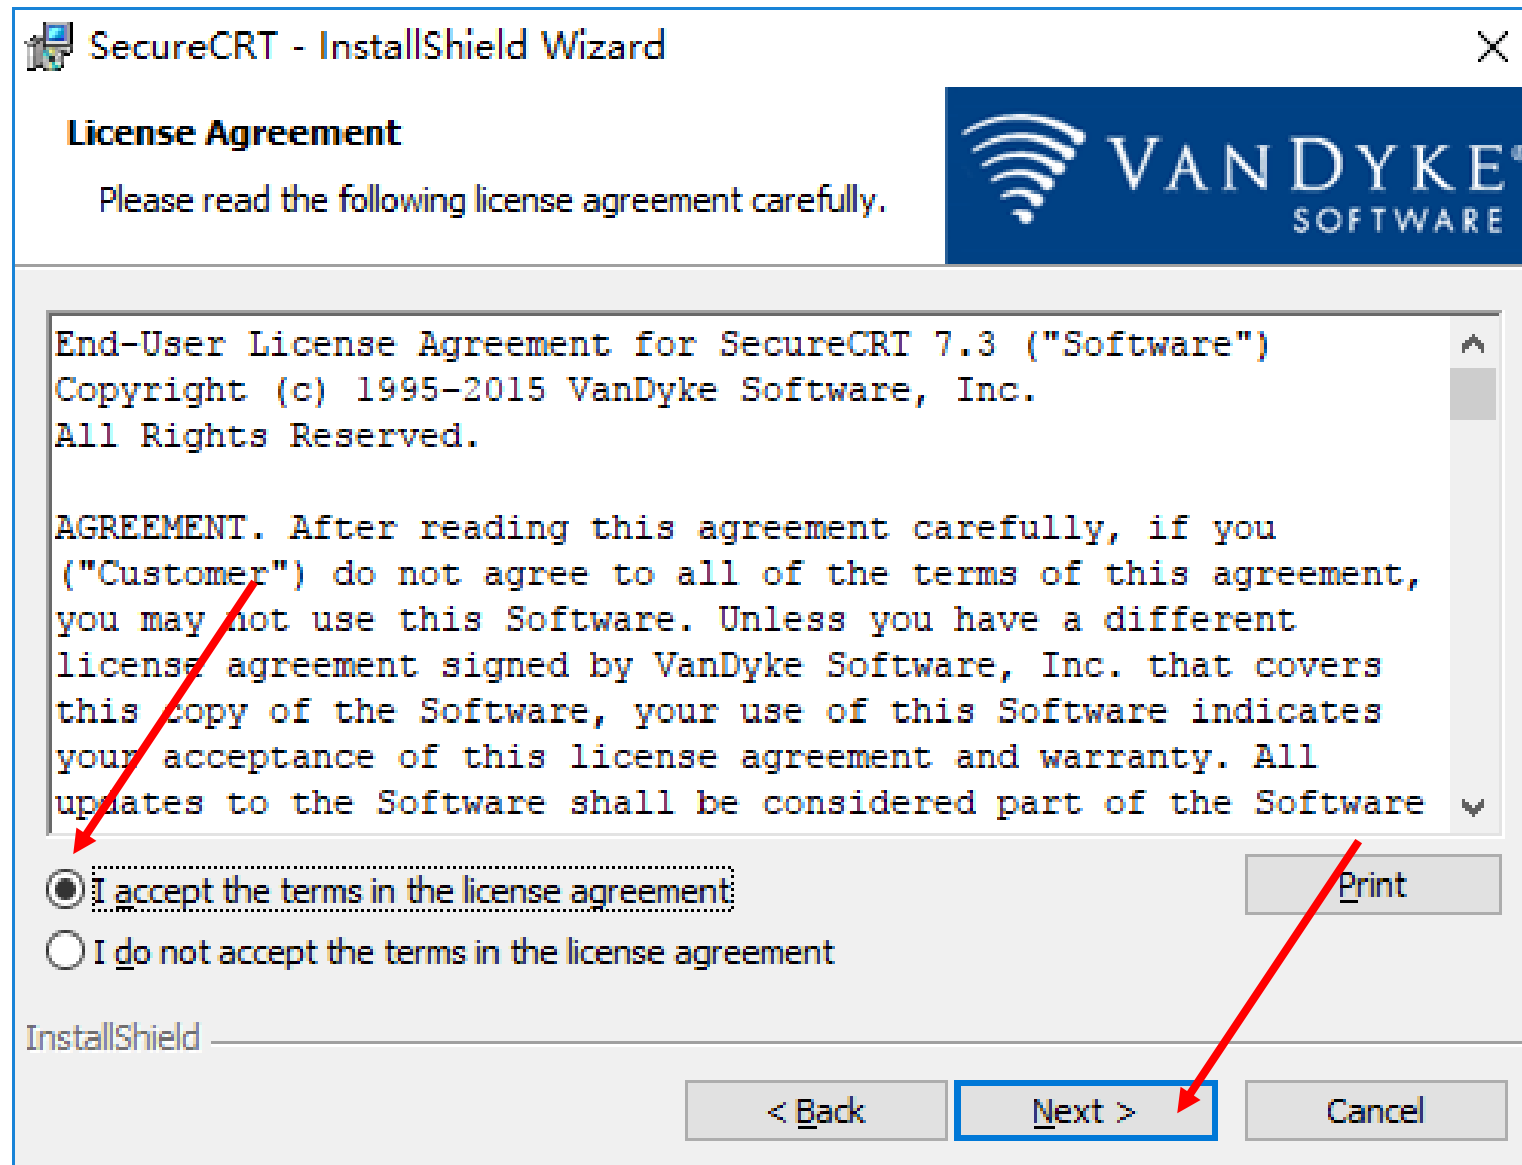

7.x 注册机\keygen.exe 大小：443,392字节

下面的安装步骤以推荐版本为准

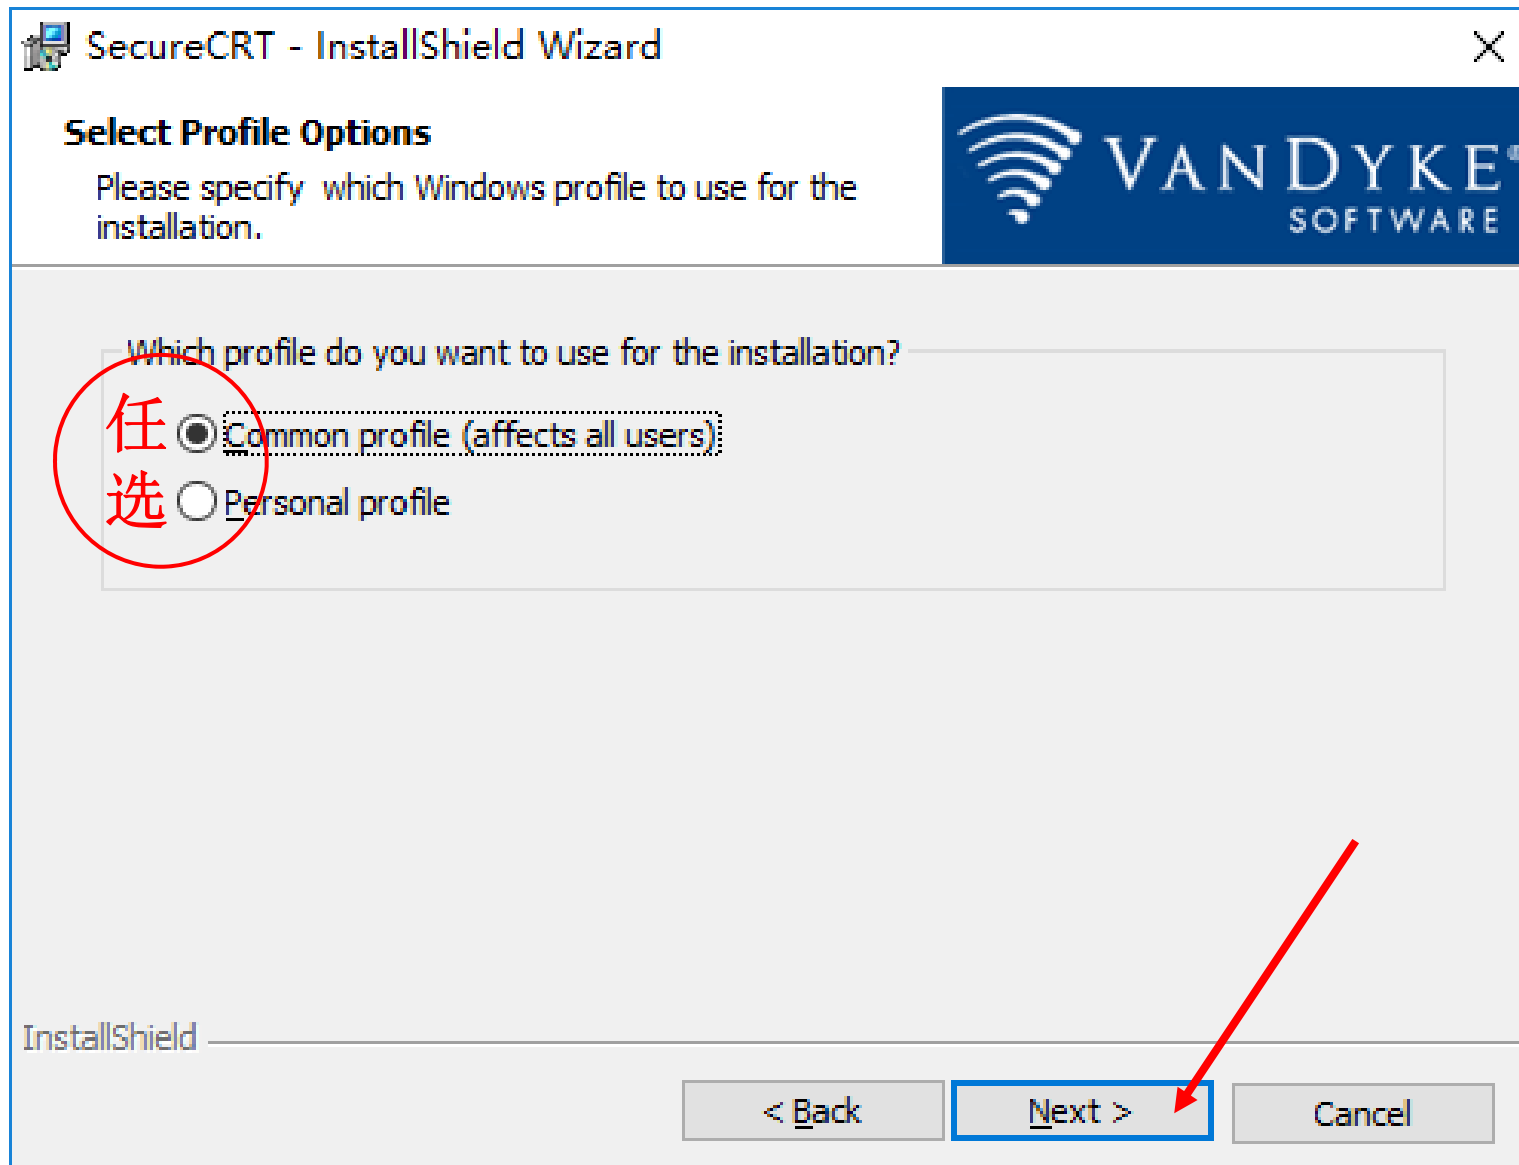

第2步：运行 `scrt734-x64.exe`，按“Next”继续

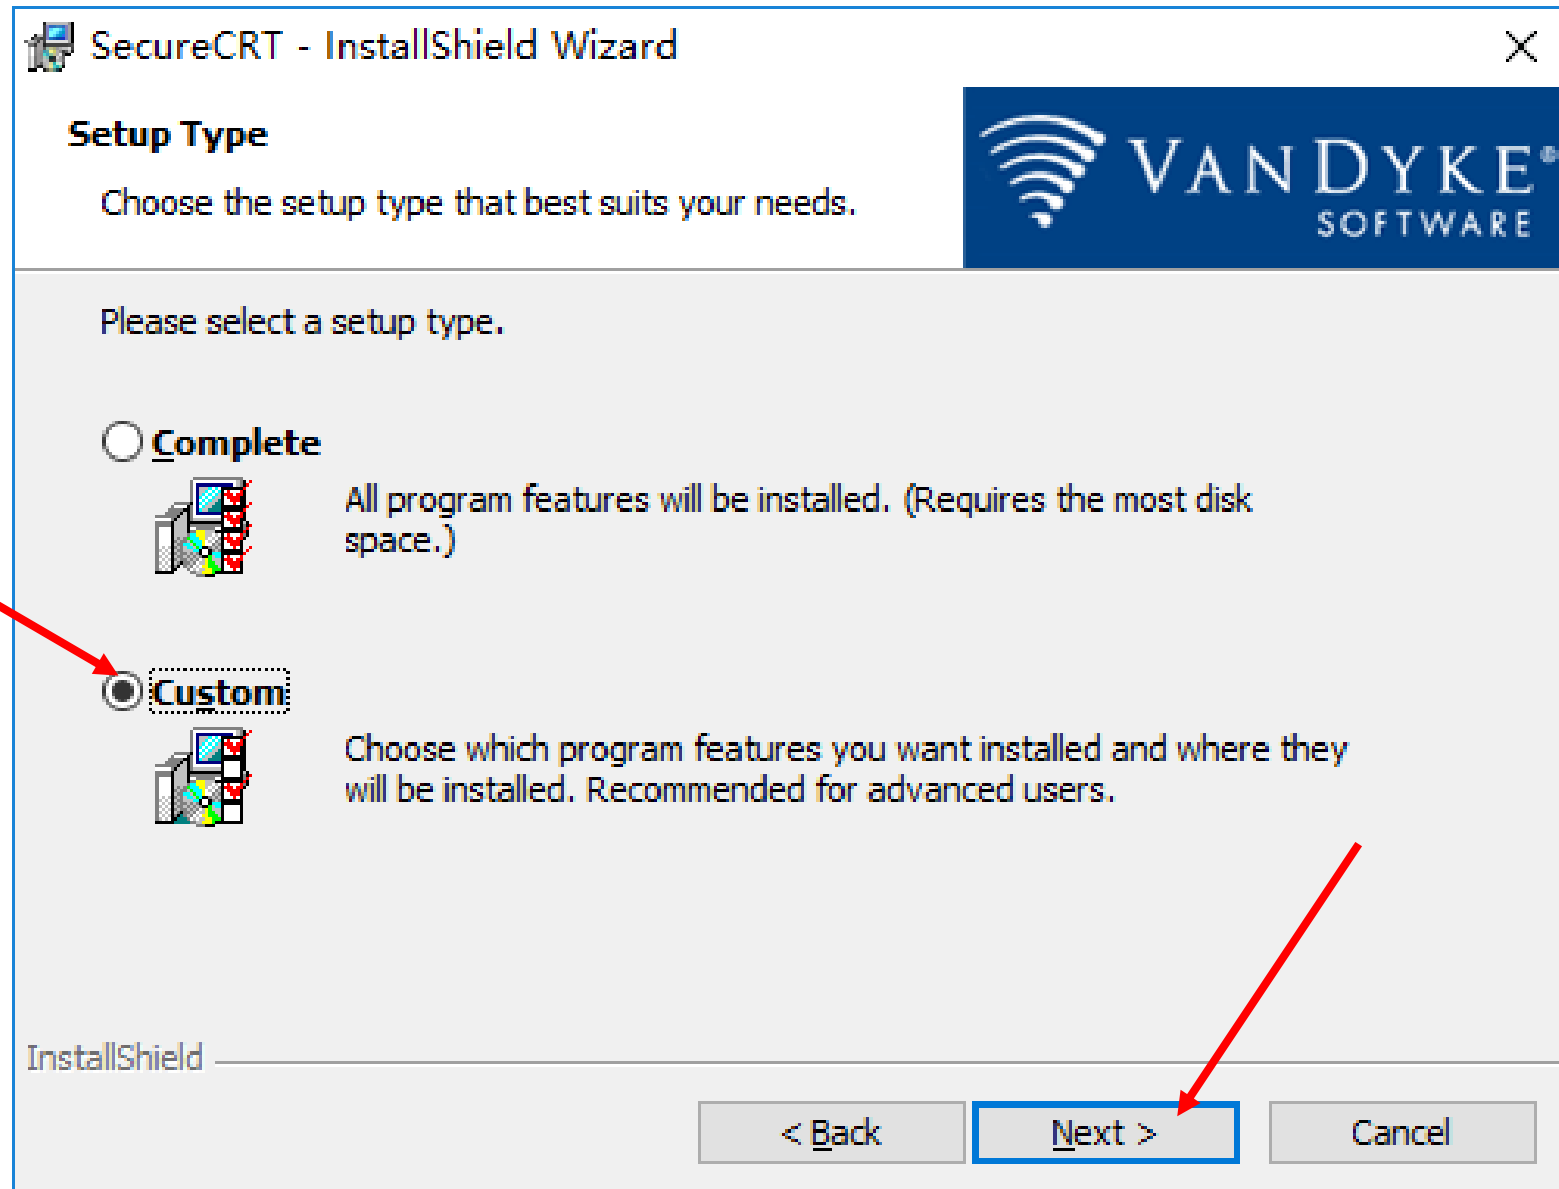

第3步：同意Linense，按“Next”继续

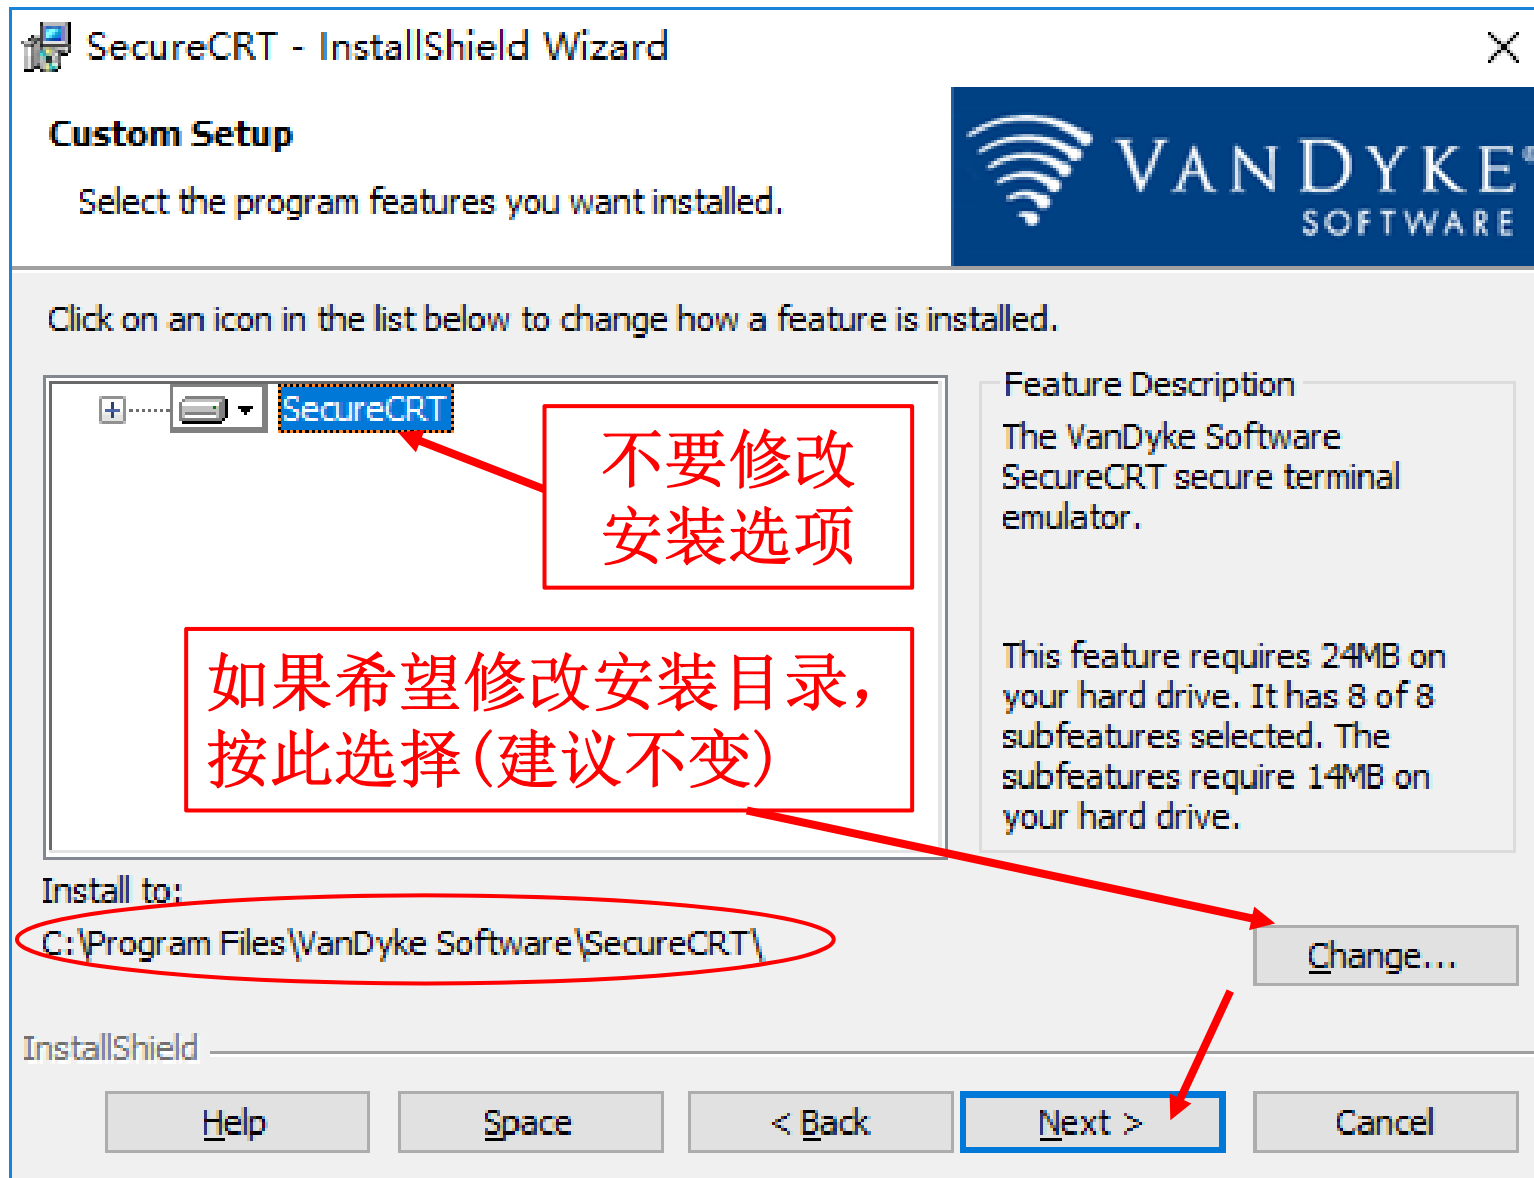

第4步：任选一个“Profile options”，按“Next”继续

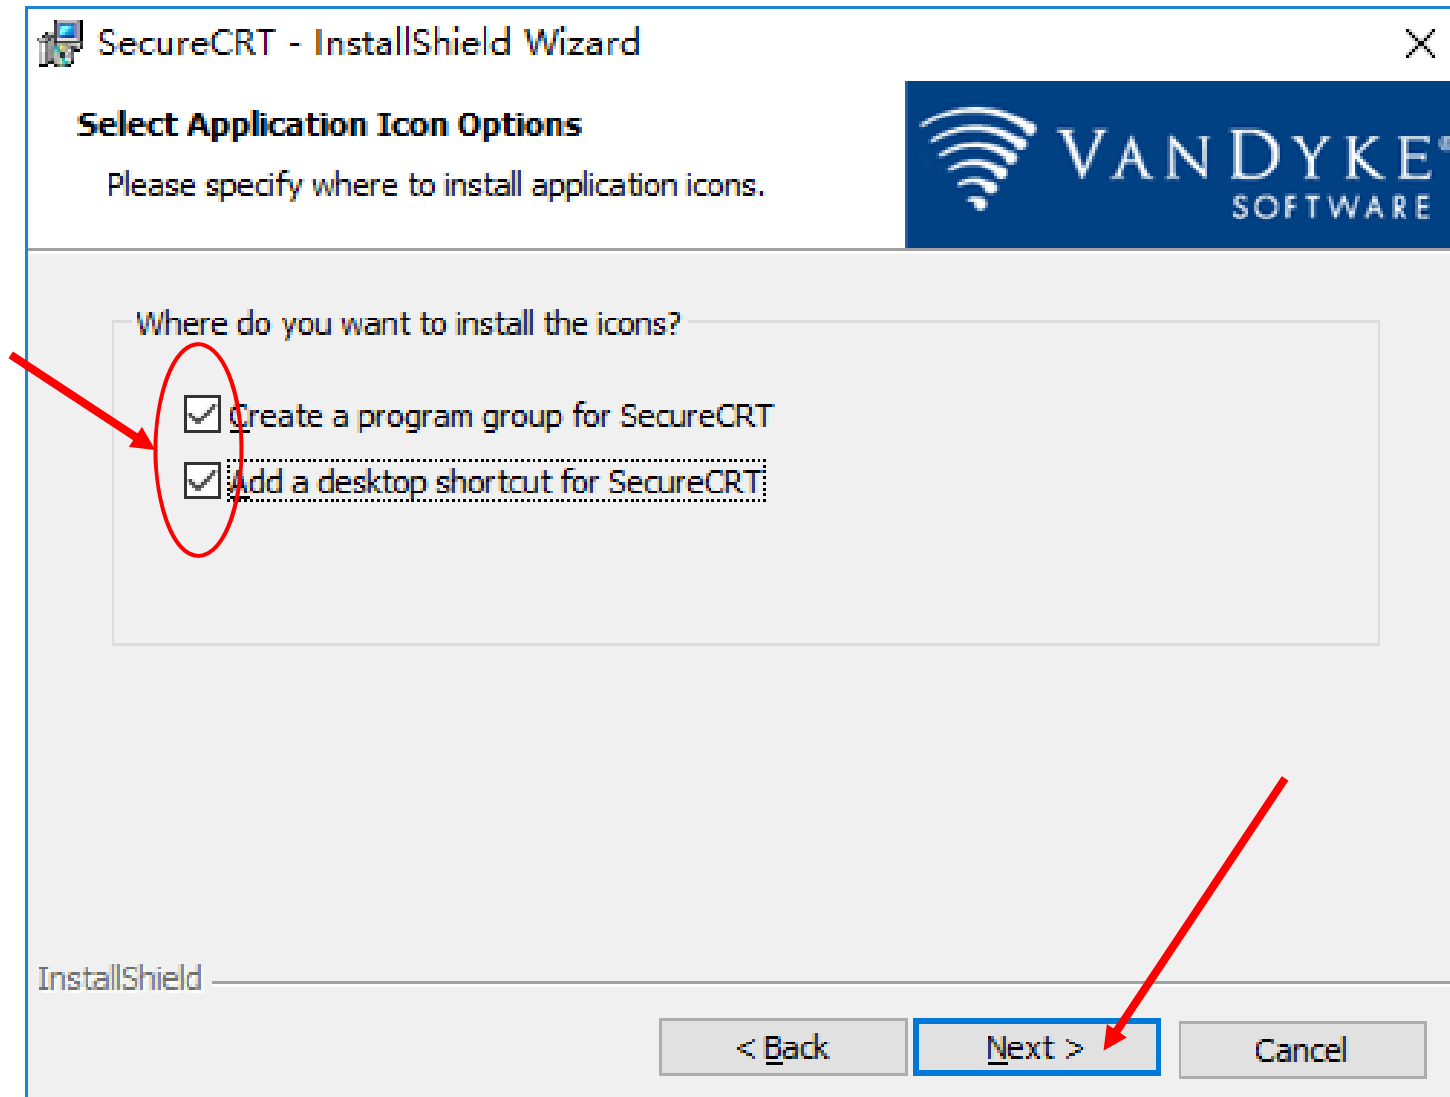

第5步：选择自定义安装，按“Next”继续

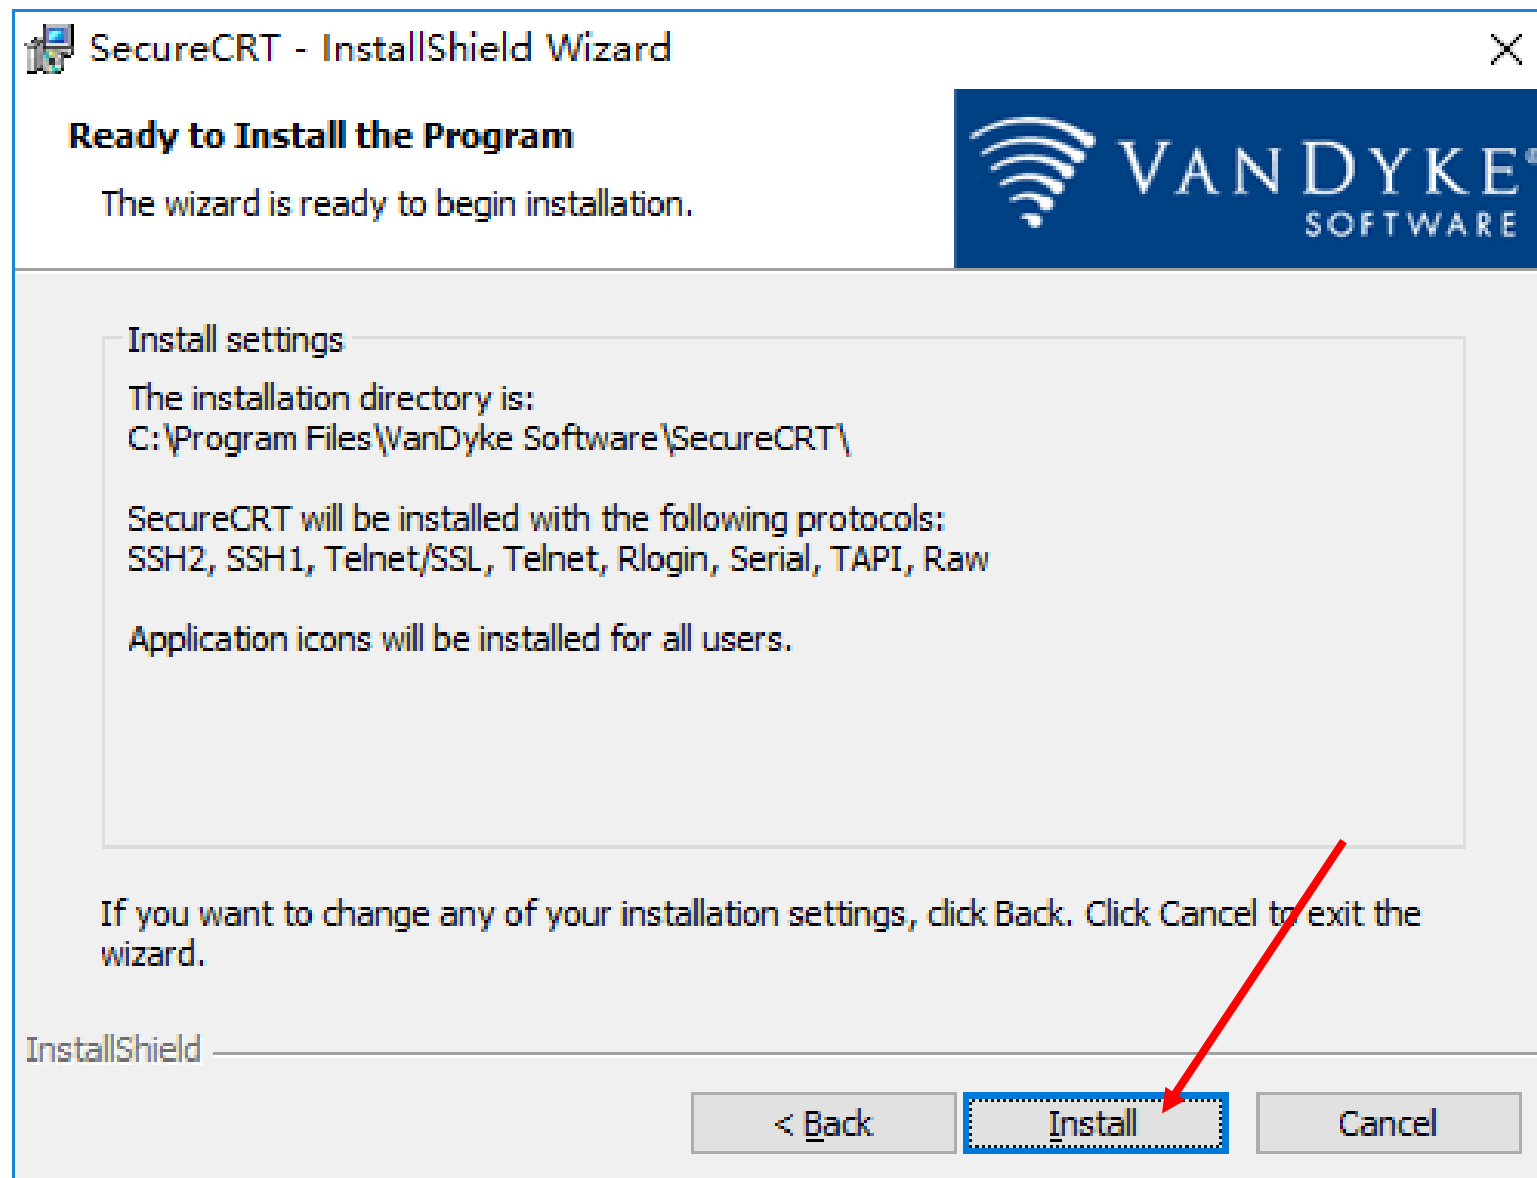

第6步：修改安装目录(建议不变)，按“Next”继续

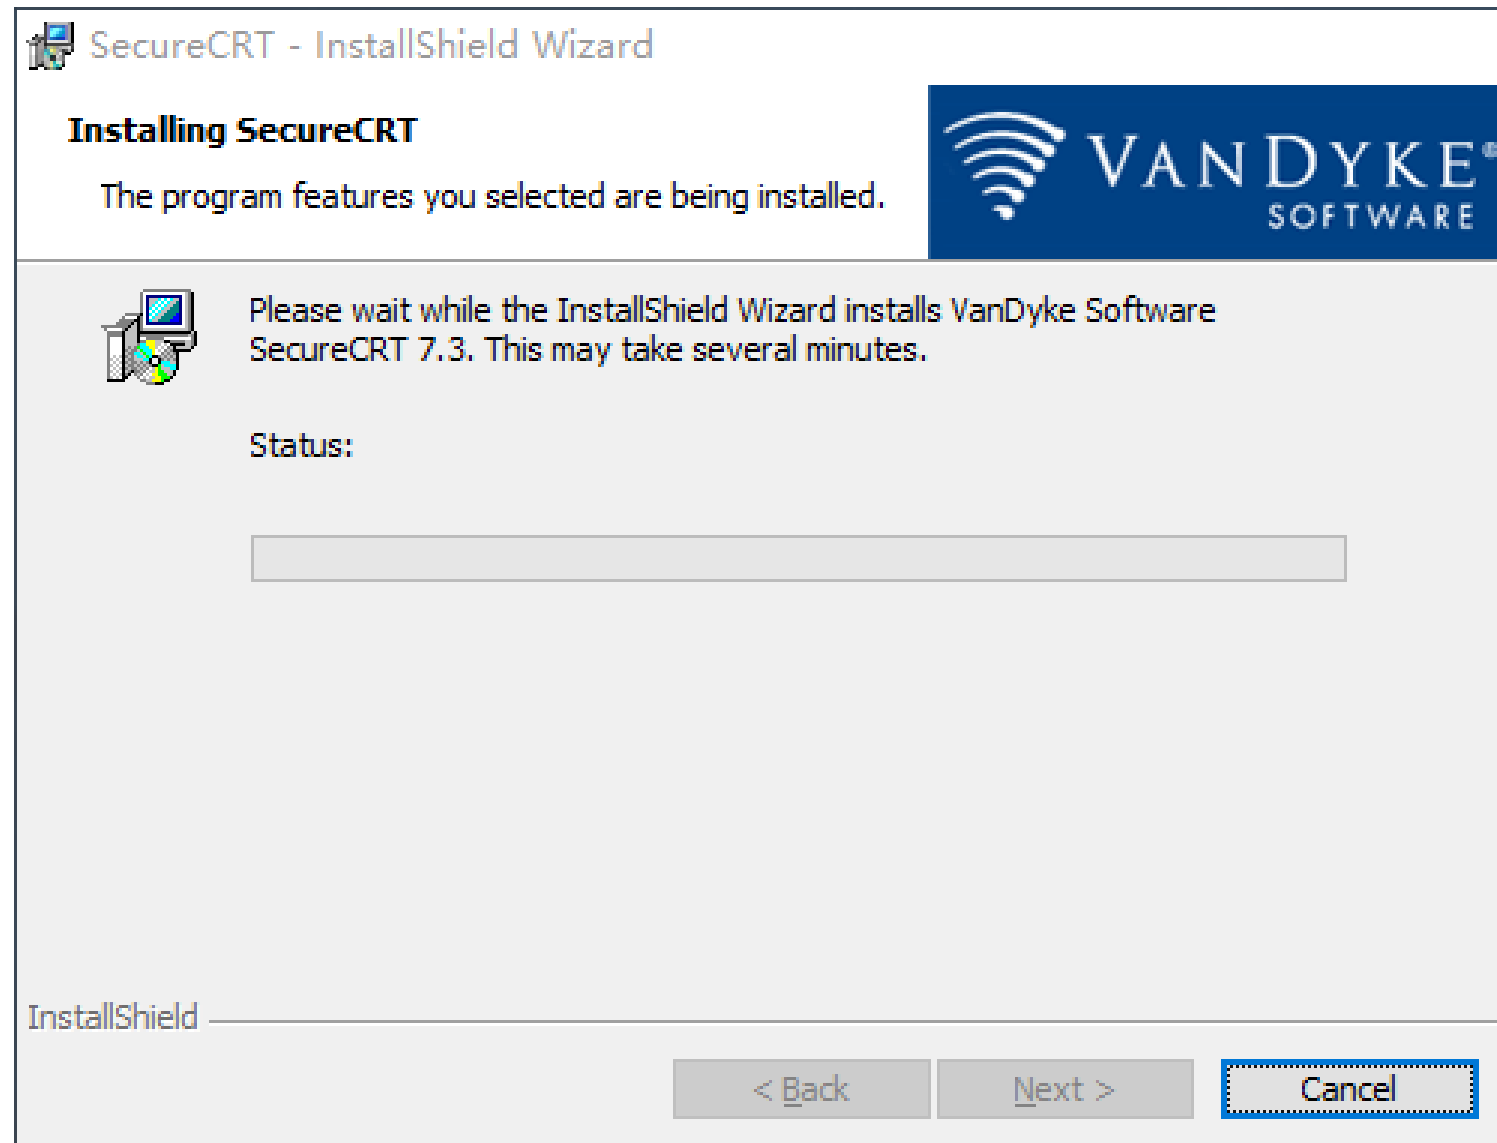

第7步：选择创建程序组及桌面快捷方式(建议都选)，
按“Next”继续

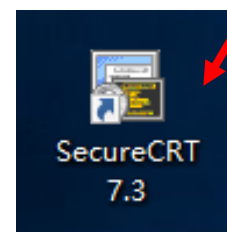

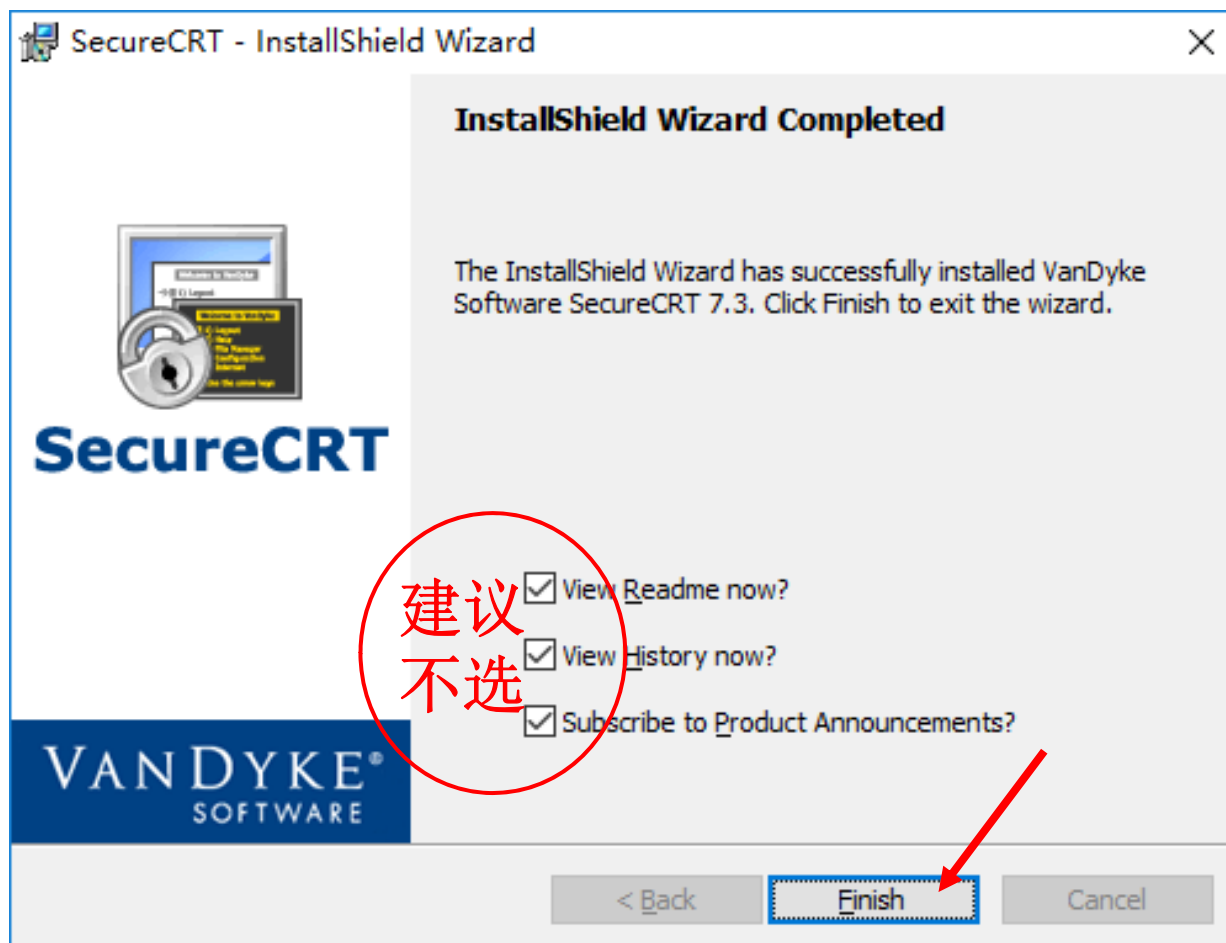

第8步：按“Install”开始安装

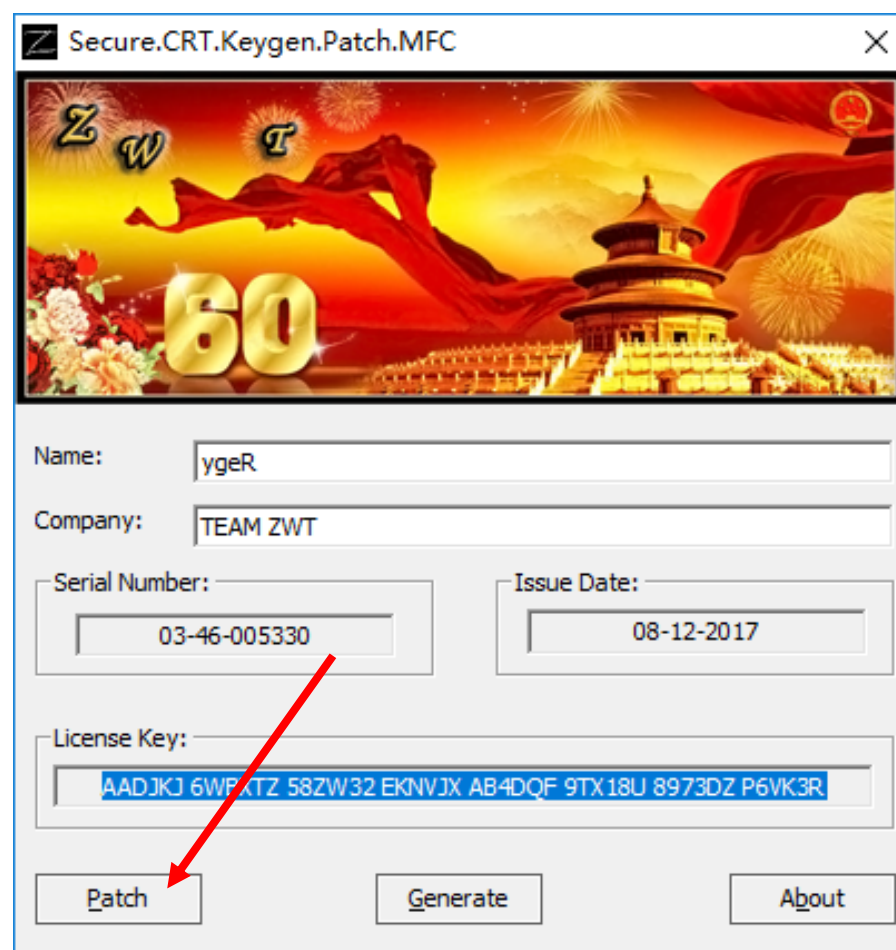

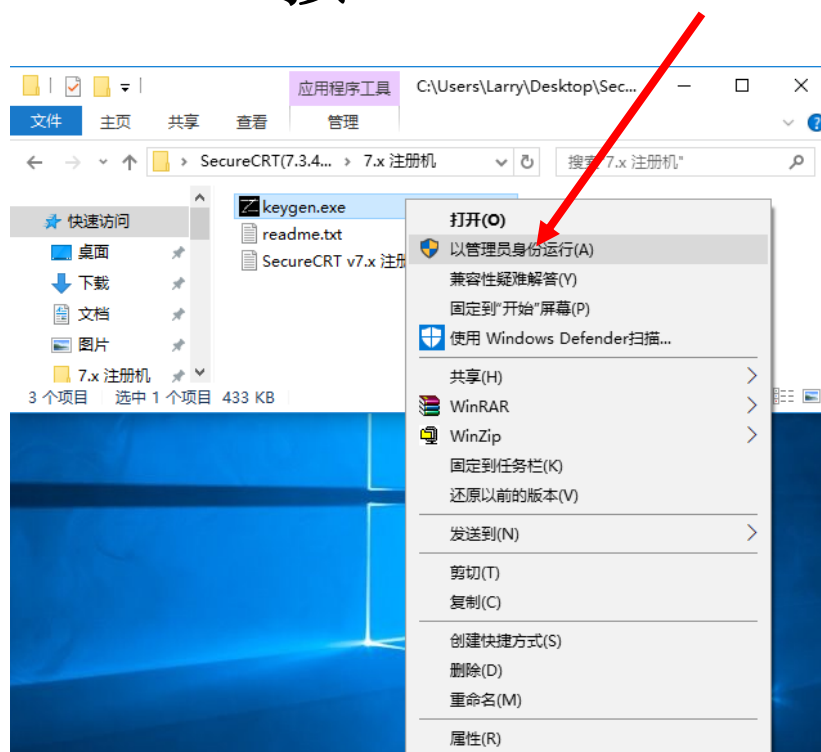

第9步：等待安装过程(什么也不做)

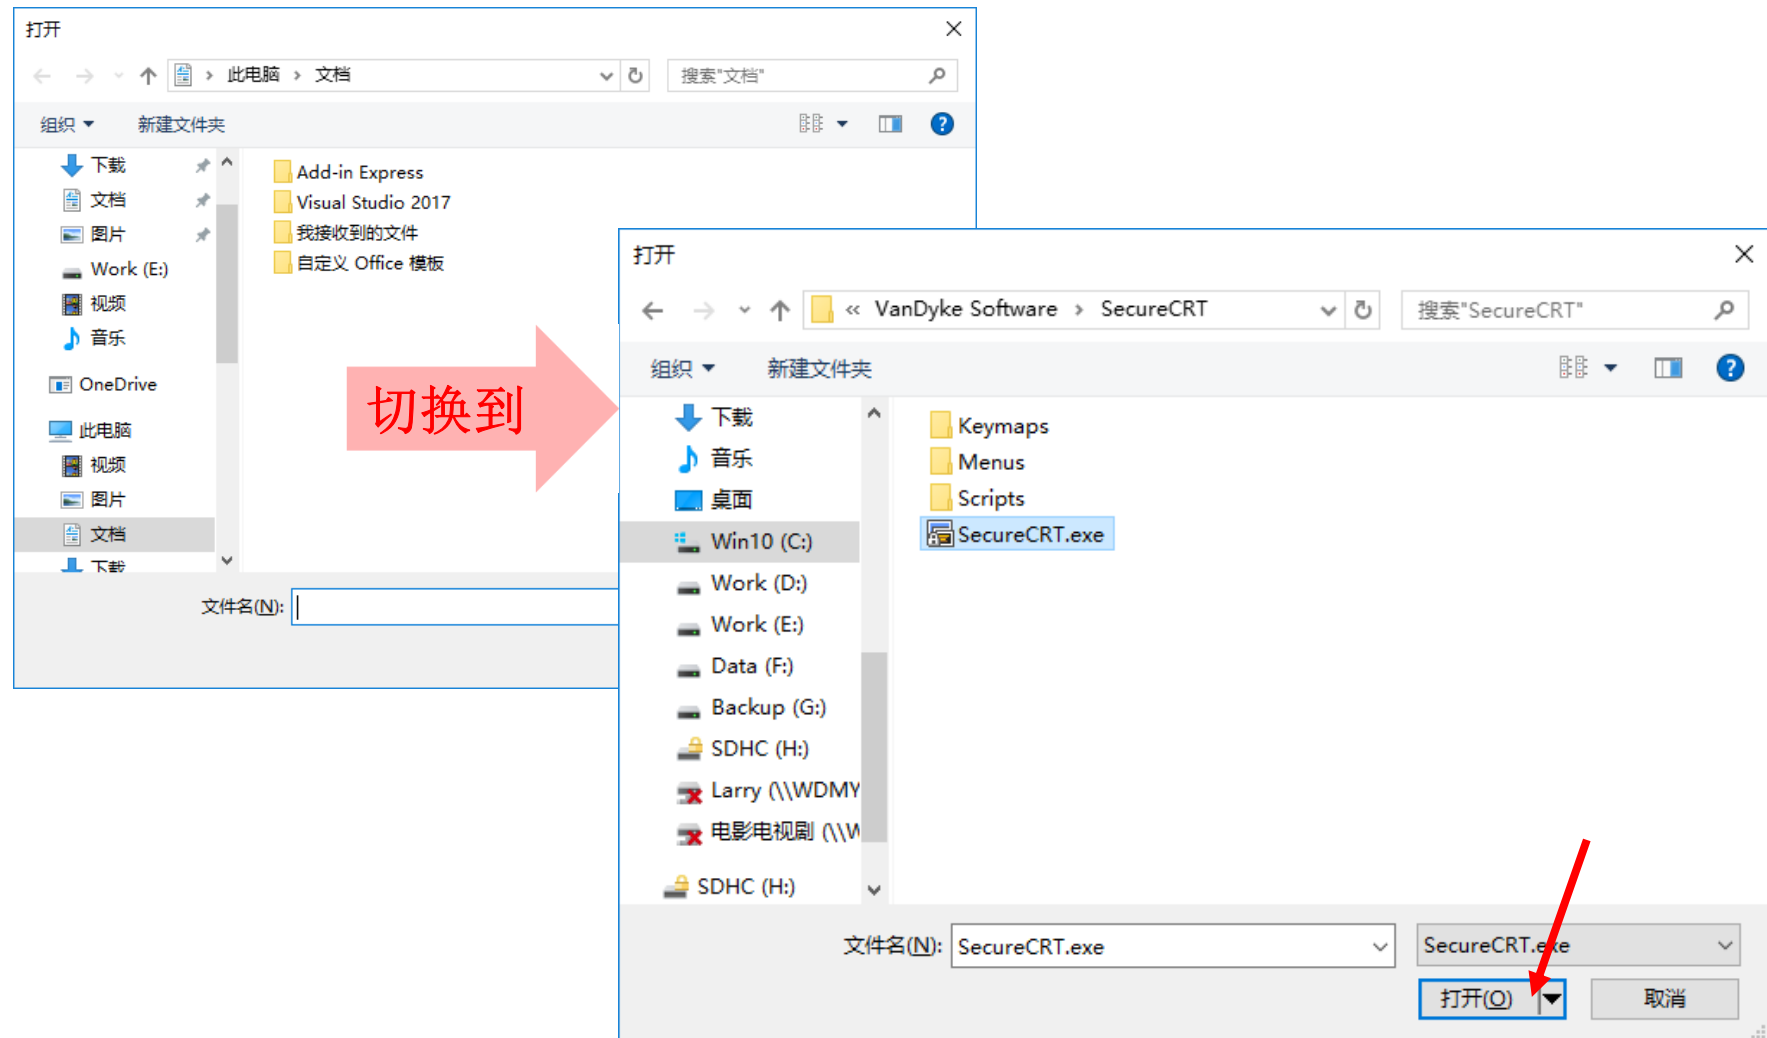

第10步：安装完成后，按“Finish”结束，桌面上会出现对应图标

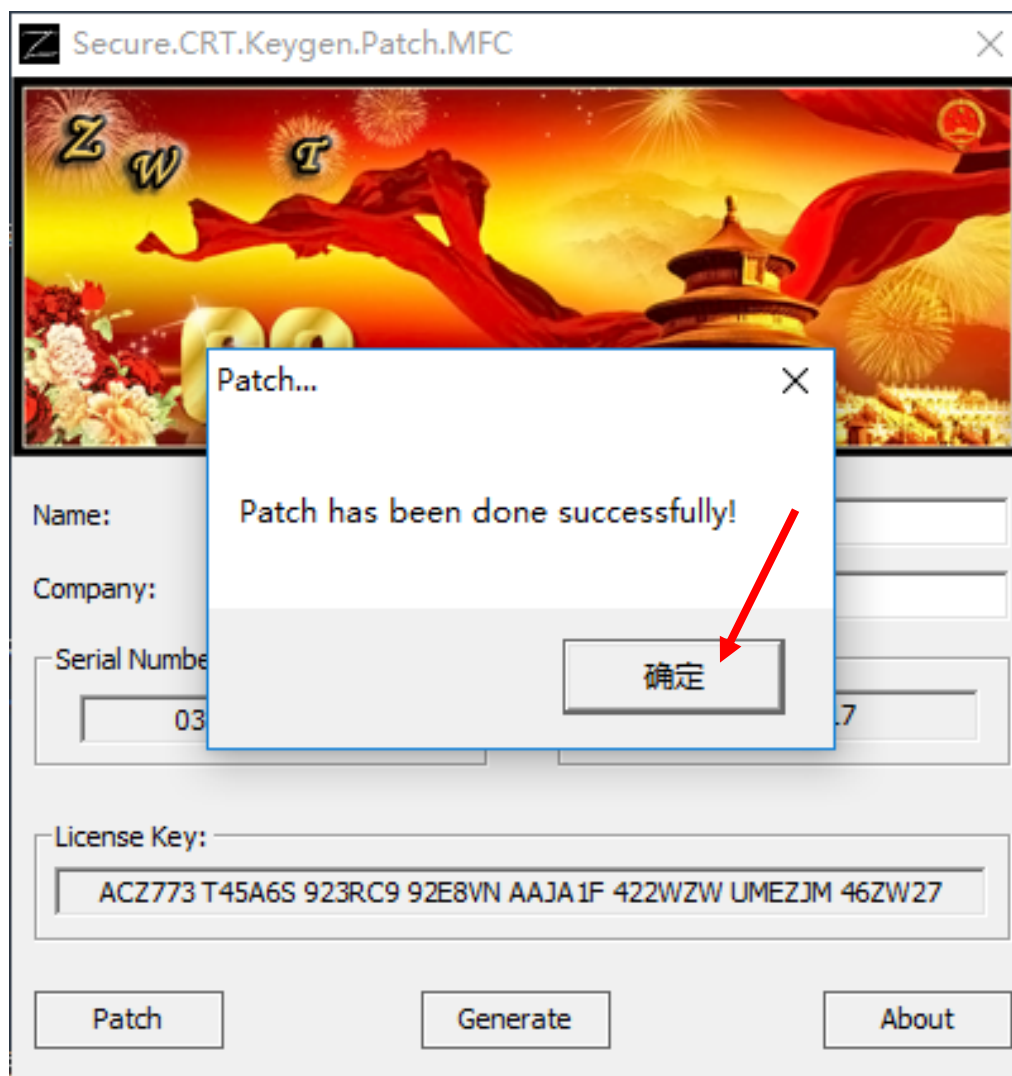

第11步：进入安装包解压目录下的“7.x 注册机”子目录，选择“keygen.exe”，按鼠标右键，在菜单中选择“以管理员身份运行”，在出现的对话框中选择“以管理员身份运行”，在出现的对话框中按“Patch”

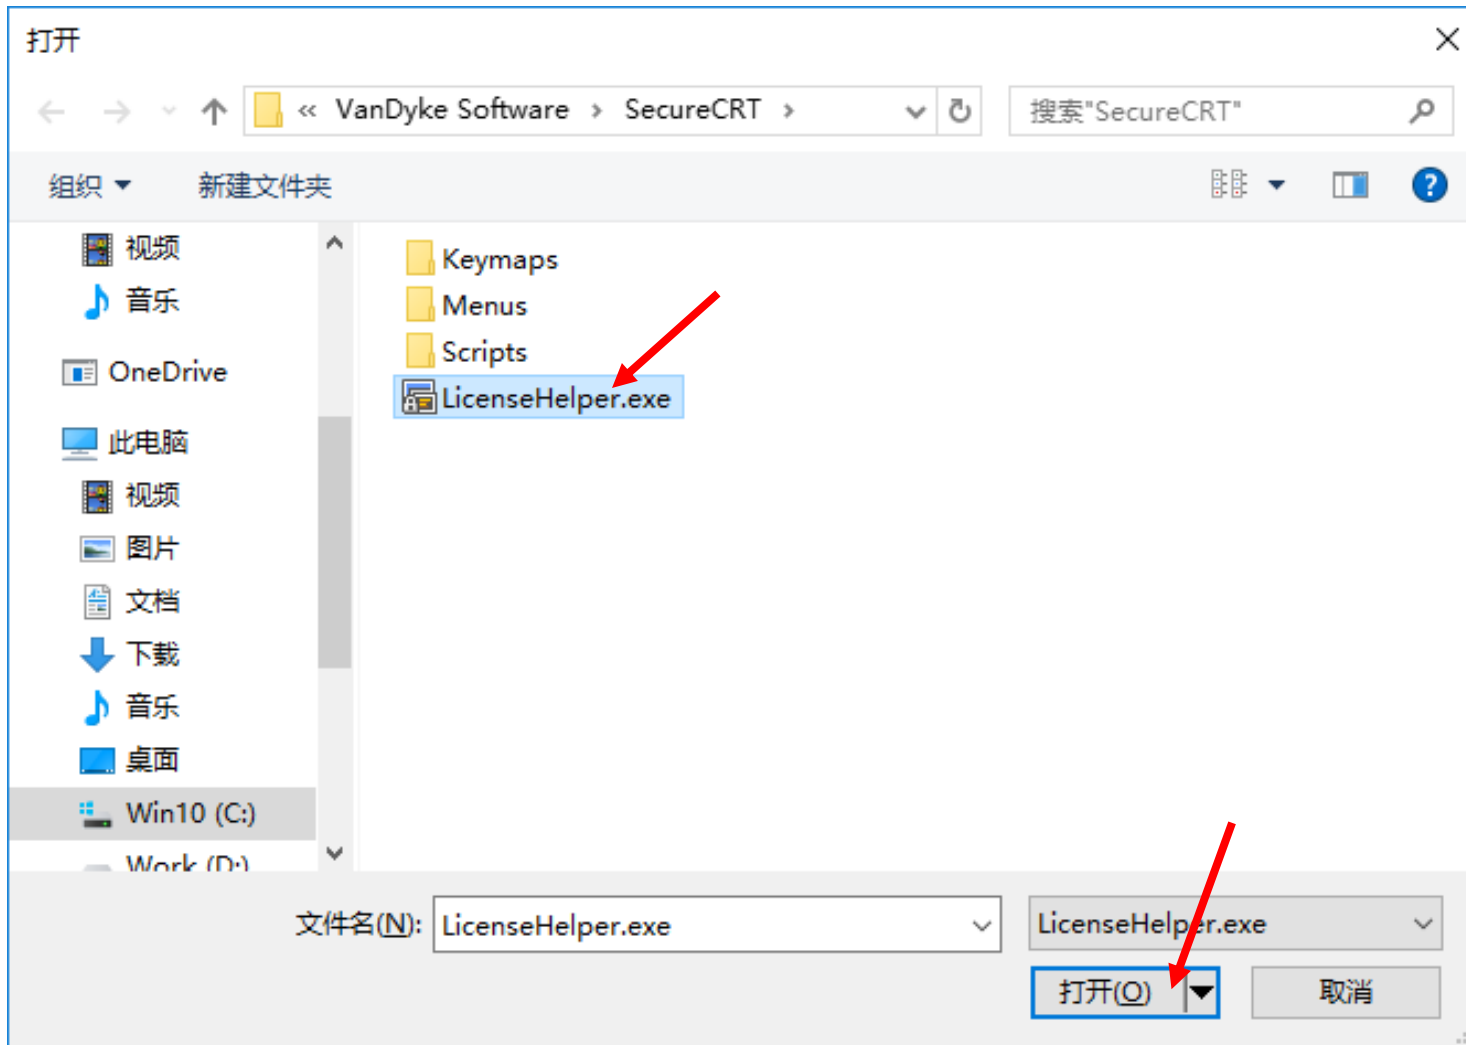

第12步：在出现的对话框中选择SecureCRT的安装目录
(缺省为"C:\Program Files\VanDyke Software\SecureCRT")
选中"SecureCRT.exe"，按"打开"

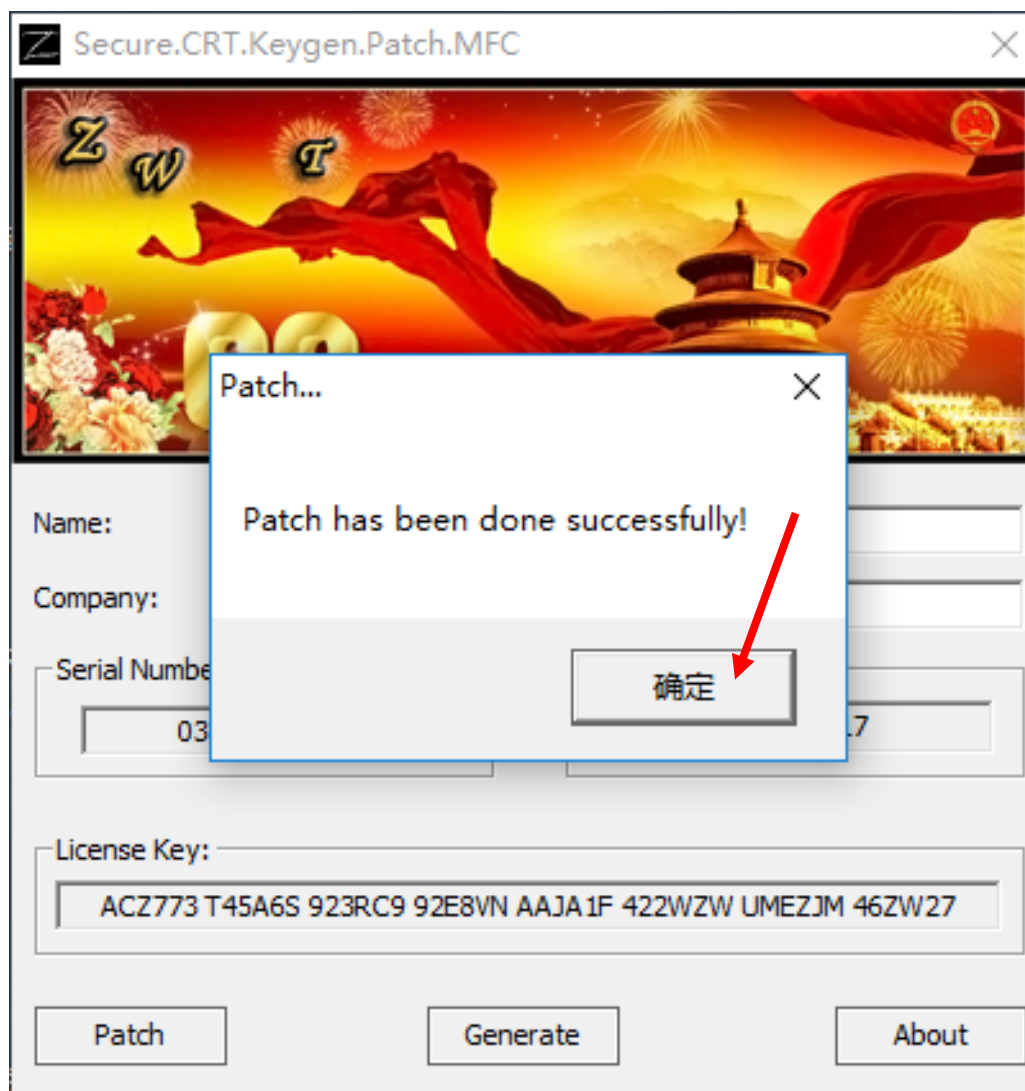

第13步：出现左边对话框，表示Patch的第一步成功，按“确定”继续

第14步：继续出现 SecureCRT 安装目录的对话框，
选择“LicenseHelper.exe”，按“打开”

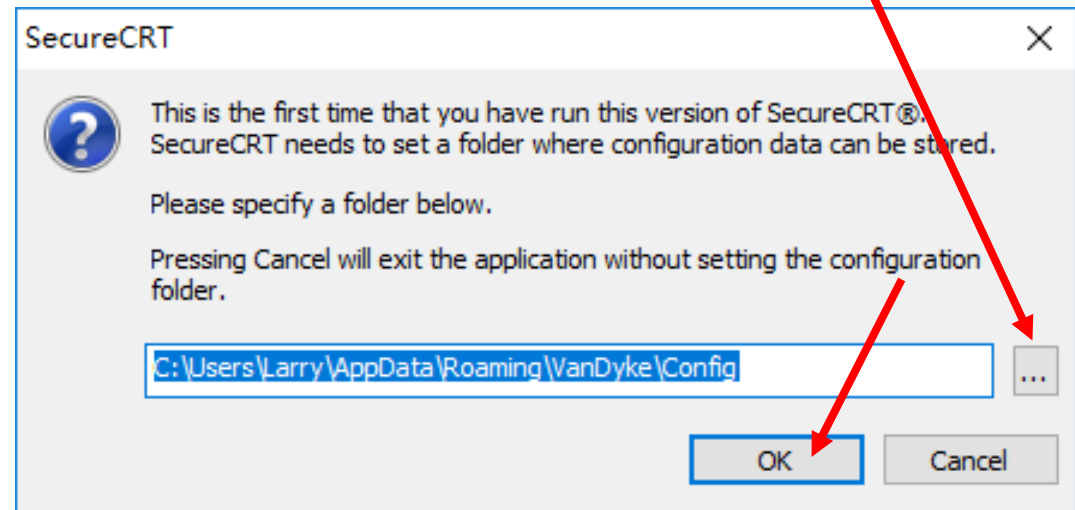

第15步：出现下列对话框，表示Patch已成功，
按“确定”继续

第16步：不关闭注册机，启动SecureCRT，首次运行时
会要求设置配置文件所在的目录，按“OK”继续

如果希望修改配置文件
所在目录，按此选择

第17步：出现如下对话框，按“Enter License Data”

The dialog box titled "SecureCRT.Keygen.Patch.MFC" features a decorative header with the letters "ZWT" and a large "60" in the center, set against a background of a traditional Chinese pagoda and a red flag. Below the header, there are input fields for "Name" (containing "ygeR"), "Company" (containing "TEAM ZWT"), "Serial Number" (containing "03-70-269912"), and "Issue Date" (containing "08-12-2017"). A "License Key" field contains the text "ACZ773 T45A6S 923RC9 92E8VN AAJA1F 422WZW UMEZJM 46ZW27". At the bottom, there are three buttons: "Patch", "Generate", and "About".

SecureCRT.Keygen.Patch.MFC

Name: ygeR

Company: TEAM ZWT

Serial Number: 03-70-269912

Issue Date: 08-12-2017

License Key: ACZ773 T45A6S 923RC9 92E8VN AAJA1F 422WZW UMEZJM 46ZW27

Patch Generate About

The "SecureCRT" dialog box has a light gray background. It contains the text "This evaluation copy of SecureCRT® has expired." followed by "For information on registering, see ORDER.TXT or visit the VanDyke Software home page:" and a blue hyperlink "http://www.vandyke.com". Below this, it says "Registered users may enter their license data now." At the bottom, there are two buttons: "Enter License Data..." and "Close". A red arrow points from the "Enter License Data..." button in this dialog to the "Enter License Data..." button in the "SecureCRT.Keygen.Patch.MFC" dialog.

SecureCRT

This evaluation copy of SecureCRT® has expired.

For information on registering, see ORDER.TXT or visit the VanDyke Software home page:

<http://www.vandyke.com>

Registered users may enter their license data now.

Enter License Data... Close

第18步：出现如下对话框，不需要输入，按“下一步”

Secure.CRT.Keygen.Patch.MFC

Name: ygeR

Company: TEAM ZWT

Serial Number: 03-70-269912

Issue Date: 08-12-2017

License Key: ACZ773 T45A6S 923RC9 92E8VN AAJA1F 422WZW UMEZJM 46ZW27

Patch Generate About

License Wizard

Please copy the entire text of your license letter into the box below.

If you only have a hard copy of your license, press the Next

< 上一步(B) 下一步(N) > 取消

第19步：出现如下对话框，按“Enter License Manually”

Secure.CRT.Keygen.Patch.MFC

Name:

Company:

Serial Number:

Issue Date:

License Key:

License Wizard

 The license data was not valid.

Press the Back button to try again or press the Enter License Manually button to enter the license data by hand.

第20步：出现如下对话框，将注册机的“Name”和“Company”中的内容复制到对话框中，按“下一步”

The image shows two windows from a software registration process.

Secure.CRT.Keygen.Patch.MFC

Name:

Company:

Serial Number:

Issue Date:

License Key:

Buttons: Patch, Generate, About

License Wizard

Enter your name and company precisely as they appear in your registration letter. Copying and pasting from the registration letter into the license fields is the easiest way to do this.

Name: Checksum: C956

Company: Checksum: B30B

When you have entered the requested data, the checksum value has to match the value in the registration letter. If it does not, compare your entered data to the registration letter.

Buttons: < 上一步(B), 下一步(N) >, 取消

第21步：出现如下对话框，将注册机的“Serial Number”和“License Key”复制到对话框中，按“下一步”

The image shows two windows side-by-side. The left window, titled "Secure.CRT.Keygen.Patch.MFC", has a decorative header with the number "60" and a traditional Chinese building. Below the header are input fields for "Name" (ygeR), "Company" (TEAM ZWT), "Serial Number" (03-70-269912), "Issue Date" (08-12-2017), and "License Key" (ACZ773 T45A6S 923RC9 92E8VN AAJA1F 422WZW UMEZJM 46ZW27). At the bottom are buttons for "Patch", "Generate", and "About". The right window, titled "License Wizard", prompts the user to enter their serial number and license key. It has fields for "Serial number" (03-70-269912) and "Checksum" (809B), and another set of fields for "License key" (RC9 92E8VN AAJA1F 422WZW UMEZJM 46ZW27) and "Checksum" (6E30). A note at the bottom explains that the checksum value must match the registration letter. At the bottom right are buttons for "< 上一步(B)", "下一步(N) >", and "取消". Red circles highlight the "Serial Number", "License Key", and "Checksum" fields in both windows. Red arrows indicate the flow of information from the left window to the right window, specifically pointing to the "下一步(N) >" button.

Field	Value
Name	ygeR
Company	TEAM ZWT
Serial Number	03-70-269912
Issue Date	08-12-2017
License Key	ACZ773 T45A6S 923RC9 92E8VN AAJA1F 422WZW UMEZJM 46ZW27

Field	Value
Serial number	03-70-269912
Checksum	809B
License key	RC9 92E8VN AAJA1F 422WZW UMEZJM 46ZW27
Checksum	6E30

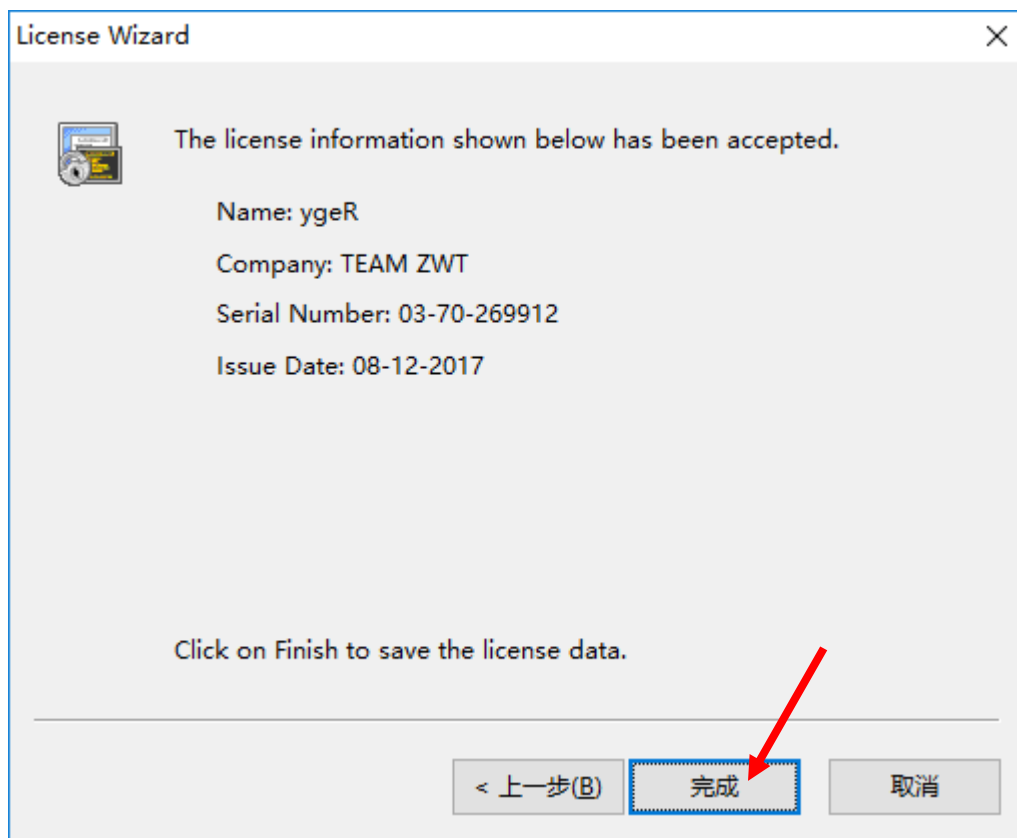

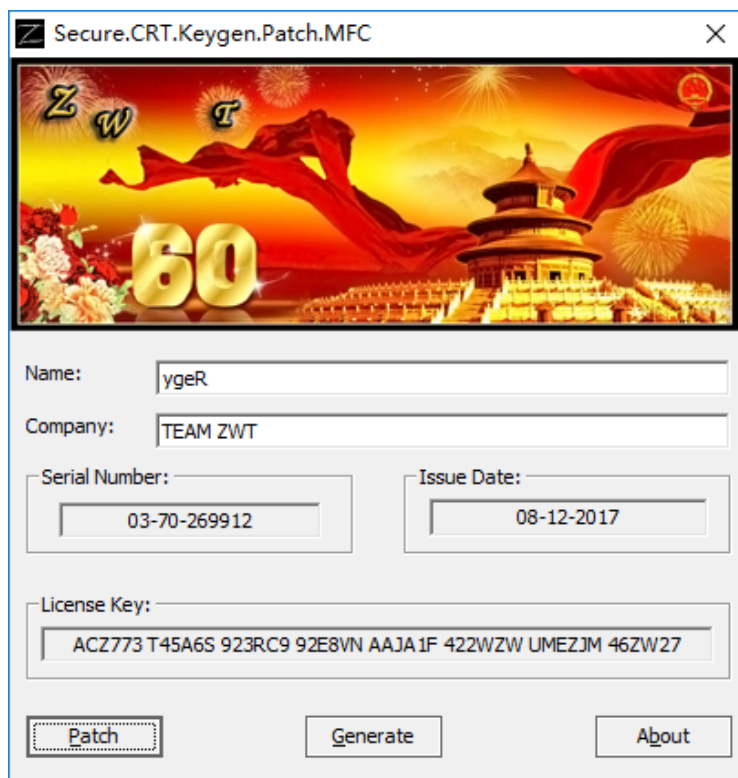

第22步：出现如下对话框，将注册机的“Issue date”中的内容复制到对话框中，按“下一步”

The image shows two overlapping windows. The left window, titled "Secure.CRT.Keygen.Patch.MFC", has a decorative header with the number "60" and a traditional Chinese building. It contains input fields for "Name" (ygeR), "Company" (TEAM ZWT), "Serial Number" (03-70-269912), and "Issue Date" (08-12-2017). The "Issue Date" field is circled in red. The right window, titled "License Wizard", prompts the user to "Enter your issue date and features as they appear in your registration letter." It has fields for "Issue date" (08-12-2017) and "Checksum" (308D). Below these are fields for "Features" (0000) and a text block explaining the checksum process. At the bottom, there are buttons for "< 上一步(B)", "下一步(N) >", and "取消". A red arrow points from the "Issue Date" field in the left window to the "Issue date" field in the right window. Another red arrow points to the "下一步(N) >" button in the right window.

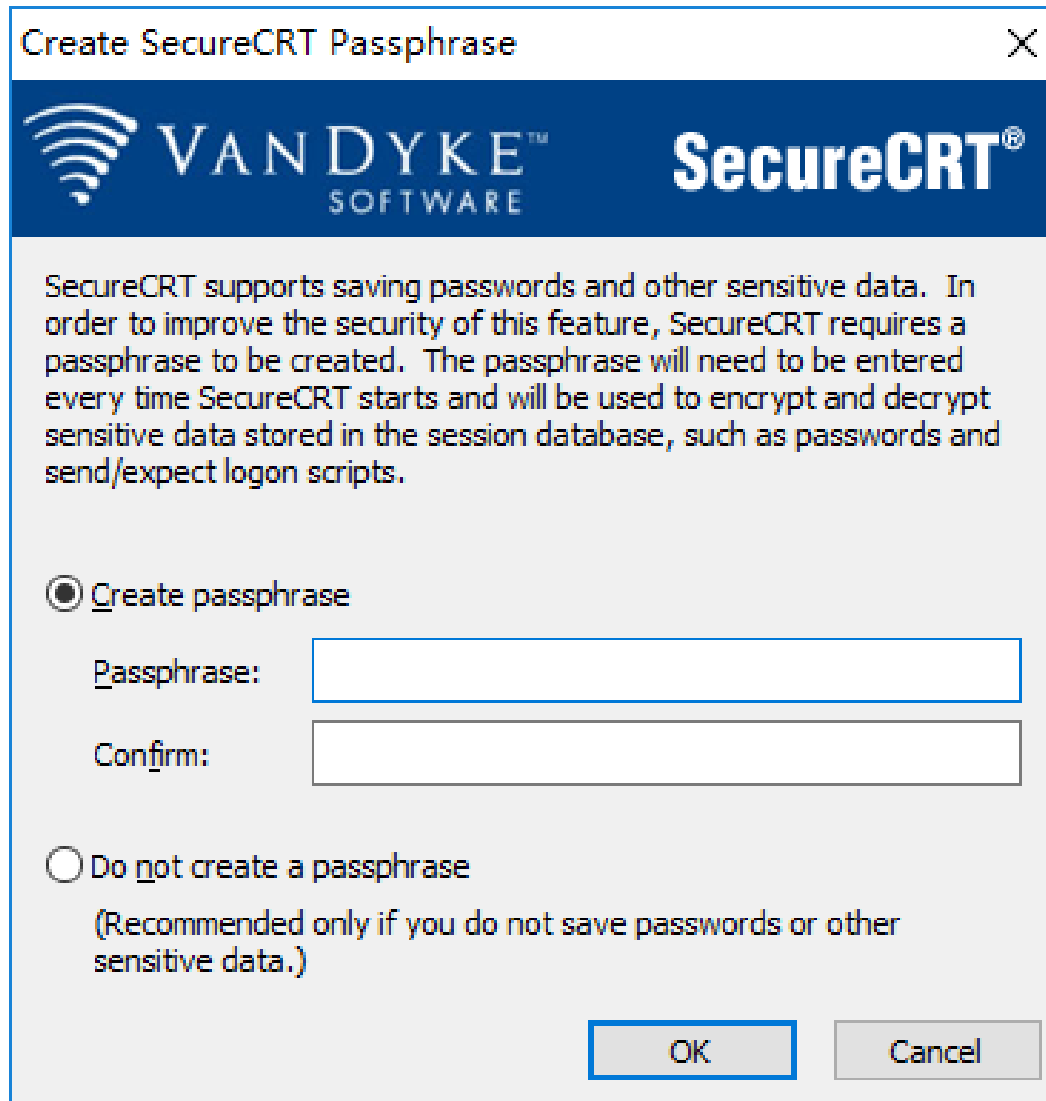

Field	Value
Name	ygeR
Company	TEAM ZWT
Serial Number	03-70-269912
Issue Date	08-12-2017
License Key	ACZ773 T45A6S 923RC9 92E8VN AAJA1F 422WZW UMEZJM 46ZW27

Field	Value
Issue date	08-12-2017
Checksum	308D
Features	0000

第23步：出现如下对话框，表示注册完成，按“完成”注册机程序也可以关闭

第24步：出现如下对话框，表示 SecureCRT 已启动
(如何使用SecureCRT的文档另附)

The image shows a Windows-style dialog box titled "Create SecureCRT Passphrase". The title bar includes a close button (X). The dialog has a blue header bar with the Van Dyke Software logo and the "SecureCRT" text. The main content area contains a paragraph explaining that SecureCRT supports saving sensitive data and requires a passphrase for security. Below this, there are two radio button options: "Create passphrase" (which is selected) and "Do not create a passphrase". The "Create passphrase" option has two text input fields labeled "Passphrase:" and "Confirm:". The "Do not create a passphrase" option has a note: "(Recommended only if you do not save passwords or other sensitive data.)". At the bottom right, there are "OK" and "Cancel" buttons.

Create SecureCRT Passphrase

 **VANDYKE™**
SOFTWARE

SecureCRT®

SecureCRT supports saving passwords and other sensitive data. In order to improve the security of this feature, SecureCRT requires a passphrase to be created. The passphrase will need to be entered every time SecureCRT starts and will be used to encrypt and decrypt sensitive data stored in the session database, such as passwords and send/expect logon scripts.

☒ Create passphrase

Passphrase:

Confirm:

☐ Do not create a passphrase
(Recommended only if you do not save passwords or other sensitive data.)

OK Cancel
